**Students' Guide
to finding a
Self-Placement**

WORK EXPERIENCE

Work experience is where you will spend time on an employer's premises undertaking tasks and duties as an employee, gaining valuable work skills to assist you in your future career path.

In this booklet there is information to help you look for your own placement. You will also find examples that you might find useful to create your letter and CV. This may be the first time you have had to apply for a job, but it will not be the last! If there is anything you do not understand, please ask your School Work Experience Co-ordinator.

When you are thinking about your work experience please think carefully about what you would like to do. If you are considering doing work experience in an industry that you think will be your career choice for the future, remember that a lot of students will be applying for the same placements, it is therefore important that your letter and CV should be completed to a very high standard and sent early to give you a better chance of being accepted on the placement of your choice.

When you receive a reply to your application, you must reply with a thank you letter this is showing the employer that you are a **polite, keen** and **enthusiastic** student who deserves the placement being offered. This way, you have made a good impression before you even start! Employers do not have to offer you a placement, they are taking valuable time out of their working day to show you what it is like to be in the world of work.

It is **not** a good idea to do your work experience with a 'school friend'. This does not allow you to build relationships with other members of staff, this is important - you are not at your work experience to keep each other company, you are there to learn an important lesson for life!

Please remember:

- Telephone your employer before you go on work experience.
- Make a good impression by being polite, keen and enthusiastic.
- Do not refuse to do anything just because you don't want to do it or can't be bothered.
- Ask questions if you need to know anything – employers do not expect you to know everything on work experience.
- If you've completed a task set let your employer know.
- Please do not use your mobile phone during working hours.

1. What would I like to do for my Work Experience

USEFUL TIPS FOR YOUR APPLICATION

- Think about the kind of job you want, try to establish if you have any career aims or objectives. You also need to think whether there are any organisations you would not work for.
- Does your CV look professional – employers look at the presentation of your work.
- Make an honest personal assessment of your abilities – if you put something down you know little about you could easily be caught out if you are asked questions.
- Once you have prepared your letter and CV check it carefully for spelling mistakes, is it businesslike in presentation, have you added everything you need to?
- Have you enclosed everything in your envelope? Check carefully – letter, CV and a self-placement form.
- Is the envelope correctly addressed? Check - is the persons name on you are writing to, the full address and have you put the postcode on?
- If you are unsure of any of the above, ask your school work experience co-ordinator, they are there to help you to do the best you can.
